Gluten-free pizza crust €2.00

Our pizza crust is suitable for a vegetarian diet, and the shredded mozzarella cheese can be replaced with shredded vegan cheese.

We make the pizza dough in a room where normal wheat flour is also handled, so there is a very small chance that flour dust might also reach a gluten-free pizza. Of course, we do our utmost to avoid cross-contamination. Our gluten-free pizzas are baked on clean baking paper in the pizza oven, which keeps them separate from other flours. As toppings, we use the same ingredients as in our other pizzas.

L – lactose-free VL – low-lactose M – non-dairy G – gluten-free V – vegan
